**Блок дисциплін 2:** Узуальна граматики

**Викладач:** к.ф.н., доц. Лопатюк Н.І.

The **aim** of this course is to enable you to thoroughly learn Modern English Grammar. **What for?** TO BE ABLE TO SPEAK ENGLISH in grammatically correct sentences!

*Active Grammar Level3 (C1-C2)* (the book the students are supplied with) allows to do it in an **easy** way. **Why?** BECAUSE THE BOOK presents grammar issues in interesting and realistic contexts (you will have a bit of appealing reading); gives clear, easy-to-understand grammar explanations (rules) with lots of sample sentences; offers exercises of different types (multiple choice, matching, cloze tests,

composition and discussion exercises).

***What about the class format?*** It's different from a traditional grammar class. Now NO rote learning but lots of speaking, lots of discussion - come and see! You will review what you learned before and find out what you never knew before.

*The topics to be covered:* modal verbs; phrasal verbs; determiners, pronouns; verb structures; infinitives and –ing forms; constructions to express hypothetical actions; emphatic devices; sentences and varieties of English: linking words; reference techniques; ellipsis and substitution; sentences and varieties of English: formal and academic English; informal and spoken English; international English.
